

Dear Team Weinreb,

Thank you for all that you did to clear my vision through cataract surgery. I can now see the faces of my opponents on the tennis court and not just identify them through voice recognition.

There has, however, been a worrisome side effect to the surgery. My face is now covered with wrinkles. Prior to surgery it was completely smooth! I am wondering if any of your other patients has complained of this condition.

Hopefully, this situation will clear up soon.

Otherwise I will be sending you a bill from my plastic surgeon!

Sally Huss

To be able to see is a gift.
To be able to see clearly is
a miracle. Thank you for the
miraculous!
